DETAILED ACTION

Election/Restrictions

1. Claims 11-13 withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in Paper No. The claims only have limitations to a building element.

Drawings

2. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(5) because they do not include the following reference sign(s) mentioned in the description: 60.

Correction is required.

3. The drawings are objected to as failing to comply with 37 CFR 1.84(p)(4) because reference character "18" has been used to designate both locknut and mounting.

Correction is required.

Specification

4. The disclosure is objected to because of the following informalities: on page 4 reference character "16" is used to designate a rod and a lock nut; and the phrase "wings" is designated by reference character "32" and "34".

Appropriate correction is required.

Claim Objections

5. Claim 10 is objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent. See MPEP § 608.01(n). Accordingly, the claim 10 has not been further treated on the merits.

Claim Rejections - 35 USC § 112

6. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

7. Claims 4, 7, 12, and 13 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

8. Claim 4 recites the limitation "the other end" in line 2. There is insufficient antecedent basis for this limitation in the claim.

9. Claim 7 recites the limitation "the or each locking nut" in line 1. There is insufficient antecedent basis for this limitation in the claim.

10. Claim 12 recites the limitation "the or each location" in line 1. There is insufficient antecedent basis for this limitation in the claim.

11. Claim 13 recites the limitation "the or each location" in lines 1-2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

12. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

Art Unit: 3637

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

13. Claims 1-2, 8-9, and 14 are rejected under 35 U.S.C. 102(b) as being anticipated by Bear.

Bear teaches all the limitations of the above claims including a tapering rod with receiving means at one end to receive a safety rope (a), securing means (C), mounting means (b) secured to securing means, and device anchored to building element (see Figure) with an aperture that securing means (C) passes through.

Allowable Subject Matter

14. Claims 3-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

15. The following is a statement of reasons for the indication of allowable subject matter: the inclusion of the mounting means including two or more locations to receive the securing means in combination with the other elements recited.
